BRAND GUIDELINES

BRAND MANIFESTO

WE DO NOT SELL COFFEE; WE SELL FOCUS.

In a world of constant notification and noise, Quiet Cafe is a sanctuary for the mind. We provide the space, the silence, and the tools for uninterrupted creation. We are the blank page waiting for the ink.

TAGLINE.

Silence is Luxury

LOGO SYSTEM

PRIMARY | SECONDARY

PRIMARY LOGO

CONCEPT.

The Primary Logo is a typographic wordmark that balances heritage with modern minimalism. It features a custom high-contrast serif typeface for "QUIET," anchored by the geometric "Nib" tail on the 'Q' and a matching diamond tittle on the 'I'. This is paired with a wide-tracked sans-serif "CAFE" below, creating a stable, architectural hierarchy.

USAGE.

This wordmark is the principal identifier for the brand. It should be used for all high-level applications, including exterior building signage, website headers, official stationery, and main packaging visuals. It must always appear in full, horizontal orientation

SECONDARY LOGO

CONCEPT.

The Secondary Logo isolates the iconic "Q" from the wordmark to serve as the brand's shorthand symbol. By removing the typography, the focus shifts entirely to the "Nib & Diamond" geometry. It stands alone as a seal of quality and a symbol of "Deep Focus."

USAGE.

Use this mark in constrained spaces where the full wordmark would be illegible (e.g., social media avatars, website favicons, app icons). It is also the primary asset for decorative branding on merchandise, such as embossing on journals, corner stamps on business cards, and wax seals

TYPE SYSTEM

PRIMARY | SECONDARY

PRIMARY TYPE

FELIX TITLING.

Felix Titling is a classical display typeface that evokes the authority of stone inscriptions and literary mastheads. Its sharp, high-contrast strokes mirror the "Nib & Ink" concept of the primary logo. It represents the "Voice" of the studio: elegant, purposeful, and commanding.

USAGE.

Use exclusively for Main Headlines, Brand Manifestos, and Large Scale

ABCDEFGHIJKLMNOPQRSTUVWXYZ

SECONDARY TYPE

INTER.

Inter is a highly legible, neutral sans-serif that acts as the quiet foundation of the brand. It provides architectural stability and ensures readability for dense information. If Felix Titling is the "Ink," Inter is the "Paper"—utilitarian, clean, and invisible.

USAGE.

Use for Body Copy, Captions, Data Points (Member IDs), and UI Elements
